Objective

MCA Graduate with hands-on experience in developing software applications using the Python programming language. Strong foundation in Python, Flask, SQL, and web development techniques. Have knowledge and practical experience in backend software development and creating scalable applications. Eager to use my technical skills as a Python developer to build effective software applications.

Skills

- **Programming Languages:** Python, Node.js, JavaScript
- **Backend Technologies & Frameworks:** Express.js, REST APIs, Flask, Pandas, NumPy, Matplotlib
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, React.js
- **Databases:** MySQL (SQL), MongoDB (NoSQL)
- **Tools & Platforms:** Git, GitHub, Postman
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Software Development Life Cycle (SDLC), Agile Methodology, MVC Architecture
- **Soft Skills:** Problem Solving, Team Collaboration, Adaptability, Communication

Experience & Projects

Software Development Intern - Aquil Tech Labs

Jan 2026 - Jun 2026

- Developed a Full Stack **ERP & CRM Portal** by using Node.js, Express.js, MySQL, React.js which enables secured communication between Admin, General Contractors and Vendors online.
- Designed and Implemented **REST APIs** for managing projects, authenticating users and processing bids that helps in maintaining efficient communication between frontend & backend. **Postman** used for testing APIs.
- Added **JSON Web Token (JWT) based Authentication & Role Based Access Control (RBAC)** to provide secure, role-specific access to the application. Also added password encryption and authentication process.
- Enhanced performance of the application through optimization of MySQL queries and schemas.
- Collaborated with the development team using **Git/GitHub** and followed Agile methodologies.

CampusEats (College Food Ordering System) - Academic Project

Sep 2025 - Nov 2025

- Developed a Full Stack **Food Ordering System** for the MET campus using Python, Flask, and MySQL for the students and teachers at MET College allows for menu browsing, food ordering, and receive digital receipt.
- Implemented **Role-Based Authentication and Authorization system (RBAC)** for Admin, Teacher, and Student users along with order processing and database security.
- Built features including scheduling of orders, bulk event order placing, live order status notifications, and dynamic Today's Special module using HTML, CSS, JavaScript, and Bootstrap.
- Designed an administrative dashboard with **sales analytics and report generation** (daily, weekly, monthly) to support order management and operational monitoring.
- Utilized MVC architecture and RESTful routing along with the relational database to create this website.

Certifications & Achievements

- **Research Paper:** Published a research paper on Academic Project - **CampusEats** in **IRJIET, Volume 9, Issue 11** - (Nov 2025)
- **Python For Data Science** (Learned NumPy, Pandas, Matplotlib) - NPTEL (Aug 2025)
- **Volunteered:** Managed State-Level Coding Competition "Code Trace" - MET Institute of Engg (Aug 2025)

Education

MET Bhujbal Knowledge City, Institute Of Engineering, Nashik

Pursuing, expected Jul 2026

- Second Year of Master's of Computer Application (MCA): 8.05 SGPA

RNC Arts, JDB Commerce, NSC Science & Computer Science College, Nashik

Jul 2021 - Aug 2024

- Bachelor's of Science in Computer Science (BSc.CS): 8.72 CGPA
