Objective

MCA graduate having hands-on experience in software testing methodologies, API validation using Postman, AI Testing, and automation tools. Excited to work with Generative AI Testing techniques to improve quality assurance and provide scalable solutions. Looking for an opportunities in the Software Testing/QA to apply my analytical and technical skills to build secure and high-quality software systems.

Skills

- **Testing:** Manual Testing, API Testing, AI Testing, Functional Testing, Test Case Design, Defect Reporting
- **Testing Tools & Frameworks:** Selenium, Jira, JUnit, TestNG, PyTest, Git, GitHub, Postman
- **Programming & Scripting:** Python, Java, Node.js, SQL
- **Software Development & Testing Concepts:** STLC, SDLC, Agile Methodology, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing
- **Databases:** MySQL (SQL), MongoDB (NoSQL)
- **Soft Skills:** Problem Solving, Team Collaboration, Adaptability, Communication

Experience & Projects

Software Tester Intern - Aquil Tech Labs

Jan 2026 - Jun 2026

- Developed and conducted test cases for **ERP & CRM applications** to detect any defects in the application and validate the solution.
- Performed **API Testing** and validation of **REST APIs** through Postman to validate requests/responses and confirm authentication, error handling, and endpoint functionality.
- Conducted tests for **JWT Authentication** and **Role-Based Access Control (RBAC)** to validate secure permission access and user authorization across different roles.
- Documented backend validations on database operations and API integrations using MySQL.
- Collaborated with the development team to reproduce and resolve defects and worked on **Agile Methodology** using Git, GitHub, and JIRA.

CyberGuardian - Academic Project

Jan 2025 - Mar 2025

- Developed a Full-Stack **Learning Management System (LMS)** for cybersecurity education featuring tutorials, quizzes, chatbot-based learning, and certification modules implemented using Java, MySQL, JavaScript, HTML, CSS, and Bootstrap.
- Designed and implemented secure user authentication process using encrypted passwords, session management, and **Role-Based Access Control (RBAC)** for administrators, instructors, and students.
- Built cybersecurity utilities including a Password Strength Analyzer and Strong Password Generator to enhance user security and awareness.
- Performed **API Testing** using Postman to ensure correct authentication, RBAC roles, data consistency, and error handling.

Certifications & Achievements

- **Research Paper:** Published a research paper on Academic Project - **CampusEats** in **IRJET, Volume 9, Issue 11** - (Nov 2025)
- **Java Fundamentals:** (Learned Core Java Fundamentals, JSP, Servlet, JDBC) - Oracle (Nov 2025)
- **Volunteered:** Managed State-Level Coding Competition "Code Trace" - MET Institute of Engg (Aug 2025)

Education

MET Bhujbal Knowledge City, Institute Of Engineering, Nashik

Pursuing, expected Jul 2026

- Second Year of Master's of Computer Application (MCA): 8.05 SGPA

RNC Arts, JDB Commerce, NSC Science & Computer Science College, Nashik

Jul 2021 - Aug 2024

- Bachelor's of Science in Computer Science (BSc.CS): 8.72 CGPA
