Objective

Motivated MCA graduate with hands-on practical experience in software development and strong knowledge in Java, Python, Node.js, SQL, and modern web technologies. Skilled in designing and developing scalable web applications, backend systems, and database-driven solutions. Passionate about building efficient, user-centric software and eager to be a part of innovative engineering teams.

Skills

- **Programming Languages:** Java, Python, Node.js, JavaScript
- **Backend Technologies & Frameworks:** Spring Boot, Express.js, REST APIs, Flask, Pandas, NumPy, Matplotlib
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, React.js
- **Databases:** MySQL (SQL), MongoDB (NoSQL)
- **Tools & Platforms:** Git, GitHub, Postman
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Software Development Life Cycle (SDLC), Agile Methodology, MVC Architecture
- **Soft Skills:** Problem Solving, Team Collaboration, Adaptability, Communication

Experience & Projects

Software Development Intern - Aquil Tech Labs

Jan 2026 - Jun 2026

- Developed a Full Stack **ERP & CRM Portal** by using Node.js, Express.js, MySQL, React.js which enables secured communication between Admin, General Contractors and Vendors online.
- Designed and Implemented **REST APIs** for managing projects, authenticating users and processing bids that helps in maintaining efficient communication between frontend & backend. **Postman** used for testing APIs.
- Added **JSON Web Token (JWT) based Authentication & Role Based Access Control (RBAC)** to provide secure, role-specific access to the application. Also added password encryption and authentication process.
- Enhanced performance of the application through optimization of MySQL queries and schemas.
- Collaborated with the development team using **Git/GitHub** and followed Agile methodologies.

CyberGuardian - Academic Project

Jan 2025 - March 2025

- Developed a Full Stack **LMS Portal** using Java that provides cybersecurity education tools, such as tutorials, quiz questions, and chatbot for interactive learning.
- Designed and implemented **Role-Based Access Control (RBAC)** mechanism for enabling safe and role-based access to the system for administrators, instructors, and students.
- Built user authentication and management functionality by integrating password encryption and session management processes.
- Created cybersecurity utilities such as Password Strength Analyzer, Strong Password Generator, and a certification module using Java, MySQL, JavaScript, HTML, CSS, and Bootstrap.

Certifications & Achievements

- **Research Paper:** Published a research paper on Academic Project - **CampusEats** in **IRJET, Volume 9, Issue 11** - (Nov 2025)
- **Java Fundamentals:** (Learned Core Java Fundamentals, JSP, Servlet, JDBC) - Oracle (Nov 2025)
- **Volunteered:** Managed State-Level Coding Competition "Code Trace" - MET Institute of Engg (Aug 2025)

Education

MET Bhujbal Knowledge City, Institute Of Engineering, Nashik

Aug 2024 - Jul 2026

- Master's of Computer Application (MCA): 8.04 SGPA

RNC Arts, JDB Commerce, NSC Science & Computer Science College, Nashik

Jul 2021 - Aug 2024

- Bachelor's of Science in Computer Science (BSc.CS): 8.72 CGPA
